Causation and Legal Responsibility. In law the main grounds of responsibility for harm are therefore (i) an agent's personal responsibility for causing harm and (ii) a person's responsibility arising from the fact that he, she or it bears the risk of having to answer in legal proceedings for the harm in question.

The economic literature on causation under negligence has recently focused on the factual causation test, and has examined the effects of that test on incentives for precaution. In this paper, we will also focus on factual causation. However, the framework we adopt is equally applicable to proximate causation issues.

Causation (law) In other words, causation provides a means of connecting conduct with a resulting effect, typically an injury. In criminal law, it is defined as the actus reus (an action) from which the specific injury or other effect arose and is combined with mens rea (a state of mind) to comprise the elements of guilt.
