"Claws that Catch" is book #4 of the series. I would have given it a higher rating but toward the end it got too silly. John Ringo does this thing with music lyrics interspersed with the narrative that can translate well with people who know the tunes, but if you don't know the lyrics, or can't recall the tune, it is wasted effort.

review 1: Okay, so this series has always been a little bit silly up until now. Cat people, hamster people, humourous acronyms.... but this fourth and apparently final book in the series really ramps it up, especially towards the end.

Claws That Catch (2008) About book: This is Book 4 in the series, and while the writing quality holds up, I found it on the whole less suspenseful. Too much time was spent on setup in the beginning, and the whole musical subplot, while useful to me personally in expanding my CD collection, seemed a little far-fetched, even for a sci-fi story.

Of course not. Best of all, if after reading an e-book, you buy a paper version of Le Petit Prince (French). Read the book on paper - it is quite a powerful experience.
