Geant 4 is a software toolkit for the simulation of the passage of particles through matter. It is used by a large number of experiments and projects in a variety of application domains, including high energy physics, astrophysics and space science, medical physics and radiation protection.

Recent developments in Geant4 - ScienceDirect

Students who choose certain majors during the first year may replace Chemistry courses with required major courses. Students should choose a major by the end of the spring quarter of their freshman year or earlier.

Grain boundaries are natural obstacles to the motion of dislocations during plastic straining of crystalline matter. As such, they may be the cause of grain-scale heterogeneity in terms of the mismatch of the elastic-plastic strain rate, internal stress, and crystallographic reorientation rate fields.

CPFEM, strain map. crystal plasticity, crystal plasticity

Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.

Models of the Universe

Nowadays, one of the major challenges in the wastewater sector is the successful design and reliable operation of treatment processes, which guarantee high treatment efficiencies to comply with effluent quality

criteria, while keeping the investment and operating cost as low as possible.

CFD-aided modelling of activated sludge systems

modern color theory (concepts) This page introduces the conceptual basis of artists' "color theory" the traditional body of lore applied by painters and photographers to the design and creation of images.

handprint : modern color theory (concepts)

Hydrology (from Greek: ὕδωρ, "h₂O" meaning "water"; and ἔλεγχος, "É³gos" meaning "study") is the scientific study of the movement, distribution, and quality of water on Earth and other planets, including the water cycle, water resources and environmental watershed sustainability. A practitioner of hydrology is a hydrologist, working within the fields of earth or environmental ...
