Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

Education in the United States is provided by public, private and home schools.. State governments set overall educational standards, often mandate standardized tests for Kâ€™12 public school systems and supervise, usually through a board of regents, state colleges, and universities. Funding comes from the state, local, and federal government. Private schools are generally free to determine ...

The responsibility for the education system in Germany lies primarily with the states (Länder), while the federal government plays a minor role. Optional Kindergarten (nursery school) education is provided for all

children between one and six years old, after which school attendance is compulsory. The system varies throughout Germany because each state (Land) decides its own educational policies.
