

fallacies and argument appraisal pdf

In reasoning to argue a claim, a fallacy is reasoning that is evaluated as logically incorrect and that undermines the logical validity of the argument and permits its recognition as unsound. Regardless of their soundness, all registers and manners of speech can demonstrate fallacies. Because of their variety of structure and application, fallacies are challenging to classify so as to satisfy ...

A straw man is a common form of argument and is an informal fallacy based on giving the impression of refuting an opponent's argument, while actually refuting an argument that was not presented by that opponent. One who engages in this fallacy is said to be "attacking a straw man." The typical straw man argument creates the illusion of having completely refuted or defeated an opponent's ...
