Love this bib! When I ordered this bib I was a little worried because a lot of the reviews talk negatively about the hard plastic. However the bib is a light weight plastic and while it is stiffer than some bibs i find the stiffness to be great because the food catcher stays open so my daughter can reach in there and grab the food that fell in it.

Screen of green or more famous as "scrogging" is the process of putting plants under one screen in hopes of keeping them short yet bushy. It also involves tucking branches therefore bringing the lower part of the branches up. This process helps them receive more light resulting in having a higher chance of getting a higher yield.

Screen of Green: Strawberry Kush and White Widow Edition

Sprouting is the natural germination process by which seeds or spores put out shoots, plants produce new leaves or buds, or other newly developing parts experience further growth.. In the field of nutrition, the term signifies the practice of germinating seeds, to be eaten raw or cooked.. The term can also be used for hair growth, and in a figurative sense it can mean something appearing suddenly.

Sprouting - Wikipedia

Cannabis, also known as marijuana among other names, is a psychoactive drug from the Cannabis plant used for medical or recreational purposes. The main psychoactive part of cannabis is tetrahydrocannabinol (THC), one of 483 known compounds in the plant, including at least 65 other cannabinoids. Cannabis can be used by smoking, vaporizing, within food, or as an extract.

Cannabis (drug) - Wikipedia

Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.
