Chapter 4 Nonverbal Communication. When we think about communication, we most often focus on how we exchange information using words. While verbal communication is important, humans relied on nonverbal communication for thousands of years before we developed the capability to communicate with words.

21% of school-age children (between ages 5-17) speak a language other than English at home (3). This number is projected to increase in the coming years (4).

Bilingualism in Young Children: Separating Fact from Fiction

Parenting or child rearing is the process of promoting and supporting the physical, emotional, social, and intellectual development of a child from infancy to adulthood. Parenting refers to the intricacies of raising a child and not exclusively to the biological relationship. The most common caretaker in parenting is the biological parent(s) of the child in question, although others may be an ...
