

molecular driving forces dill pdf

Diffusion is the net movement of molecules or atoms from a region of high concentration (or high chemical potential) to a region of low concentration (or low chemical potential) as a result of random motion of the molecules or atoms. Diffusion is driven by a gradient in chemical potential of the diffusing species. A gradient is the change in the value of a quantity e.g. concentration, pressure ...

Protein folding is the physical process by which a protein chain acquires its native 3-dimensional structure, a conformation that is usually biologically functional, in an expeditious and reproducible manner. It is the physical process by which a polypeptide folds into its characteristic and functional three-dimensional structure from random coil. Each protein exists as an unfolded polypeptide ...

The Angry Video Game Nerd is an Internet series based on a fictional character, the "Nerd", created and portrayed by James D. Rolfe. In each episode, the Nerd reviews a terrible video game and rants about it using profane language. Mike Matei helps Rolfe by playing guest characters in certain episodes (Bugs Bunny, The Joker, etc.).
