

multiplying and dividing rational pdf

Note: When multiplying rational expressions, if only the signs differ in a numerator and a denominator (for instance, the numerator is $x-7$ & the denominator is $7-x$), factor out -1 from either the numerator or denominator; then divide out the common factor.

MULTIPLYING & DIVIDING RATIONAL EXPRESSIONS

Section 2.3 Multiplying and Dividing Rational Numbers 63 Work with a partner. Write a story that uses addition, subtraction, multiplication, or division of rational numbers. At least one of the numbers in the story has to be negative and not an integer. Draw pictures to help illustrate what is happening in the story. Include the solution of the problem in the story.
