

wireless communication engineering technologies pdf

Abstractâ€”With increasing interest in millimeter-wave wireless communications, investigations on interactions between the human body and millimeter-wave devices are becoming important. This paper gives examples of todayâ€™s regulatory requirements, and provides an example for a 60 GHz

The Human Body and Millimeter-Wave Wireless Communication

Telecommunication is the transmission of signs, signals, messages, words, writings, images and sounds or information of any nature by wire, radio, optical or electromagnetic systems. Telecommunication occurs when the exchange of information between communication participants includes the use of technology. It is transmitted either electrically over physical media, such as cables, or via ...
